MICHAELI BOLFRASIO I. V. D.

FRATRI SVO charissimo.

Iuppiter vt quondam subitas accensus in iras,  
 Omne hominum genus immixtis submergeret undis.  
 Totq; simul celsas arces, tot dura virorum  
 Pectora, totq; suis claras cum mœnibus vrbes,

Hauriret Neptunus aquis, lateq; per agros  
 Sauriret tumidi damnosa potentia ponti.  
 Iamq; mare & tellus nullum discrimen haberent,  
 Non littus: nigris miscentur fluctibus undæ  
 Aequorea, geminiq; maris coit æstus in vnum:  
 Mirantur sub aqua, lucos, montanaq; lustra,  
 Nereides: pressasq; maris sub gurgite turres:  
 Mons ibi Parnasus solum caput altius imbre  
 Erigit, aquoreas superatq; cacumine nubes:  
 Quem Phœbum, Musasq; ferunt, doctamq; Mineruã,  
 Excoluisse: suo cum starent cuncta vigore,  
 Illic Deucalion, qui tot de millibus vnus  
 Manserat, (horrendum nam cetera texerat aquor)  
 Cum consorte tori, parua race veclius adharens,  
 Hospitium cœpit, satis exemptus iniquis.  
 Nec licuit cum cuncta salo, ventisq; licerent,  
 Turbine Pieridum placidos turbare Penates,  
 Haud secus & quamuis grassantibus undiq; bellis,  
 Undiq; regnet atrox discordia, regnet Erynnis,  
 Et Bellona, truces animentq; in pralia gentes  
 Arma armis, manibusq; manus, cum milite iungat  
 Miles, & effundant per mutua vulnera vitam.  
 Salua tamen Phœbo, sacrisq; habitacula Musis,  
 Stant sua: que belli rabies, que saeva Tyrannis,  
 Non perdet, licet assiduo relisq; minisq;

Circum

*Circum teſta fremat, tamen illa immota manebunt,  
Firmus ut aquoreis manſit Parnaſus in vndis.  
His quicumq; nouus ſuccedere ſedibus hoſpes  
Expetit, ut colles inter ſyluaſq; virentes,  
Quas Clarius liquor humectat, quas gratia Phœbi  
Exhilarat : tutus vitam traducat, & inter  
Mortales caput ad ſupremi ſidera cœli  
Tollat, non ſegnīs diſcinctaq; in otia pronus,  
Continuas ſomno pergat conſumere noctes,  
Sed varias animum emendet formetq; per artes.*

*Picrides etenim ( tacitas ſeu noſcere vires  
Naturæ cupis, aut cœli luſtrare meatus,  
Nobile ſeu ſtudium iuris, ſeu carminis ambis,  
Siue poteſtates herbarum, uſusq; medendi,  
Scire cupis ) ſuauī designant ſingula voce.  
Cumq; per has pectus coluiſſi ſtrenuus artes,  
Nec piguit varios vitæ exhaustiſſe labores,  
Non varios caſus, non triſtia plurima : monſtrant,  
Quid virtutis opus, quæ ſemita ducat ad altas  
Nata quibus Diuūm Sapientia præſidet, arces :  
Ut viridi tandem redimitus tempora lauro.  
Magnificam referas largo cum ſcenore laudem :  
Non ſecus ac miles quando cataphractus in hoſtes  
Itq; ruitq; ferox, non vulnera dira, cruentam  
Non metuit mortem, ſed fortior inſtat, ut atrox.  
Euccumbat tandem labefactis viribus hoſtis,  
Ipſeq; victoris laudem & ſpolia ampla reportet.*

*Ergo etiam frater te digno amplector amore,  
Dum Phœbi teneris eſ caſtra ſecurus ab annis :  
Te puerum Pallas, turba comitante nouena,  
Suſcepit ore mio, & ſacratīs lauit in vndis  
Pegaſei fontis : dumq; aurea baſia iungit.*

En Charites præsto tibi lilia picta rosasq;  
A spergunt, lætæq; fouent sub dulcibus vlnis,  
Mox etiam Vranie, scrutata volumina cæli,  
( Cui tacitos casus secretaq; nascere fata  
Ipse pater dedit ) has effundit pectore voces :

Salve parue puer, minus infelicibus horis,  
Nasci digne puer, non te dammosa voluptas,  
Non leuis ambitio, nec amor te franget habendi,  
Non tibi segnities, non oia pigra, nec atrox  
Mars, aut difficilis Saturni stella nocebit,  
Nec male, ceu vulgus demens, inglorius omne  
Traducēs auum : vt non post fata superstes  
Fama tibi maneat : verum inter amœna vireta,  
Inter & amplexus, puer optatissime, nostros  
Cresces : nos succis virtutum implebimus omne  
Pectus, & in venas pulchrum infundemus honestum,  
Nos tibi linguarum fontes monstrabimus aptos,  
Seu Latium decus exoptes, siue Attica mella,  
Auxilio fretus nostro, per iuris apertum  
Oceanum, velis semper felicibus ibis :  
Hinc tibi surget honos, hinc fama, hinc gloria surget,  
Gloria : qua niueis te tollet ad æthera pennis.

Dicta fides sequitur : vix dum successerat annus  
Primus ab vndecimo : veterum iam scripta Sophorum,  
Iam Ciceronaos gaudes gustare lepores,  
Iam te græca iuuant, socijs post terga reliclis  
Præripis optata felicia præmia palmæ :

Venerat à decimo iam septimus annus, abires  
Vt laribus primum patrijs ad culta Roseta  
Balsfica : Post, Viadri tibi complacere Lycea  
Sarmatico vicina solo : qua Phœbus, & ipsa  
Pierides Musæ, manibus constructa beatis,

Sacrauere sibi : doctas ubi Pallas ad artes  
 Ingenuam summa ducit cum laude inuentam.  
 Illic Vandalicis discedens hospes ab oris,  
 Carpis iter tandem : quarti post ocia lustris.  
 Dumq; libet studijs multas hic sumere noctes,  
 Cesarei primum ponis fundamenta iuris :  
 Bartholicas quia tradit opes, Baldiq; recessus  
 Schraderus monstrat : quo vix est doctior alter :  
 Quattuor à lustris, quintus successerat annus  
 Mox tibi connubio, celebri de stirpe creatam  
 Zochorum, iungis stabili, propriamq; dicare  
 Blandinam, blandos que tecum viueret annos,  
 Complacet : & pulchra faceret te prole parentem.  
 Vix bene finitis nona trieteridos annis,  
 Trita bis inuectas acceperat area messes :  
 Strenuus ut summa iam dexteritate suis  
 Ingenuus artes, Astræaq; iura secutus.  
 Miratus Claris magna ornamenta Palestræ :  
 Ecce tibi concors virtutis premia dudum,  
 Soluere Theſpiadum contendit cura sororum,  
 Innecluntq; tuis fragrantia serua capillis,  
 Perpetuisq; rosis, immortalisq; Amarantho :  
 Scilicet eloquio, cultosq; probabilis ore,  
 Iuridici laus summa chori, quem Marchica dudum  
 Saxoniaq; virum, norunt felicia regna :  
 Gerstmanus, Clario simul applaudente Senatu,  
 Insignes titulos, iuris Doctoris & equi,  
 Decernit cum laude tibi, reliquisq; probatis  
 Ingenio studijsq; viris, quos duxit ad istos  
 Par labor, ac animi par impetus acris honores.  
 Usq; adeo, laudes, & gloria sponte sequuntur,  
 Qui petit, & superat sublimis culmina montis,

Quem Charites, Musæq; simul, quem Phœbus Apollo,  
Incolit: hic densis licet horreat undiq; spinis.

Aspice, quam nostri nunc templa sacrata Lycei  
Exultent, faucantq; tibi, socijsq;, virenti  
Tempora succinctis lauro: quam nablia passim  
Et Citharæ, lituiq; sonent, lateq; per urbem  
Gaudia fundantur, ferit aurea sidera clangor:  
Ecce tot egregij Proceres, venerabilis ordo,  
Totq; simul iuvenes, clara pia turba Minerva,  
Vt linguis animisq; tibi bona cuncta precentur.  
Latatur Viader, tumidis caput exerit undis,  
Latantur valles, gelidiq; in vallibus amnes,  
Mirati plaususq; novos & gaudia vara.

O si fata tuo hoc (Lachesis quem funere mæsto  
Ante diem rapuit) frater percipere parenti  
Donassent: modò presentis quò festa diei  
Vidisset: quanto, quanto exultasset amore?

Sed accus hoc ipsi peracerba morte negatum est.  
O rigor, ô vehemens duri violentia fati,  
Sic fragiles versant humana negocia motus,  
Alternæq; vices miscent: heu tristia vitæ  
Munera: quæ nutu citius labuntur in auras,  
Qualiter incisi languescunt vomere flores.

Est ita: nec fas est duros nunc pectore casus  
Voluere, non miseris animum torquere querelis:  
Tempus enim mæstis aliud stat luctibus aptum,  
Est ubi te lapidis possis recreare loquelis:  
Sæpius illudit sic spes quoq; vana colonos,  
Cum subitis segetes imber ferus abstulit undis.

Iam licet hoc caro inuideat trux Parca parenti,  
Sunt alij in viuis, tua quas bona fama, decusq;  
Exhilareret, cupiantq; tuos qui cernere honores:

Est genetrix praesens, sunt pectora cara sororum,  
Affinesq; tui, & consanguinitate propinqui,  
Totq; viri hinc, animi donus opibusq; beati:  
Hi pariter iuncti votis feliciter optant,  
Vt fortuna tibi latis ad cuncta quadrigis  
Currat: vt & Pylis longaeuos Nestoris annos  
Exuperes saluus, laudesq; imiteris auitas:  
In primis patrem referas: & fortibus ausis  
Ex aequis illum, virtutisq; amulus exstes,  
Consilijs atq; arte ducum, populine salutem  
Spectes: hinc inopum collapsa negocia tractes:  
Vt sic Bolfrasij cedat tibi nomen in omen.

Quin ego: quem fraternus amor tibi iunxit honoris  
Gratulor, o Germane, tuo, & per vota precesq;  
Obtestor Superos, patriae sine incola terrae  
Permaneas, veniasue procul nouus hospes in oras  
Vt quaesita tibi cedant praemia laudi,  
Aethera aues citius vitent, & flumina pisces.  
Antra ferae, gramenq; pecus, syluasq; Leones.  
Quam tibi successus fors denegat atra perennes,  
Quam tua marcescat praecleara gratia mentis:  
Vt male sub tenebris iaceas, sub nocte sepulchris,  
Flebilis, & prorsus caligine confusus atra.

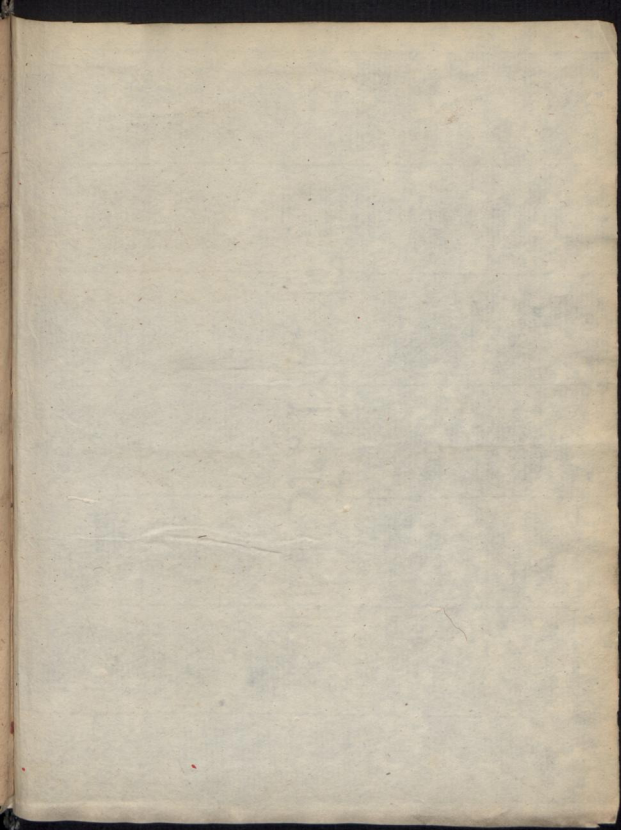

Salue spes patria, salue spes magna tuorum,  
Qui bifida fulges iuris nunc Doctor in arte.  
Scilicet hoc virtus, probitasq; hoc candida morum  
Integritas, meruit, cultaq; modestia vitae.  
Salue iterum: te nunc caelo tua gloria tollet,  
Gloria: quae niueis mundum circumuolat alis,  
Bolfrasi: meliore cani dignissime vena,  
Si tamen in magnis satis est voluisse: benigno  
Carmina, quae mitto, frater, precor accipe vultu.

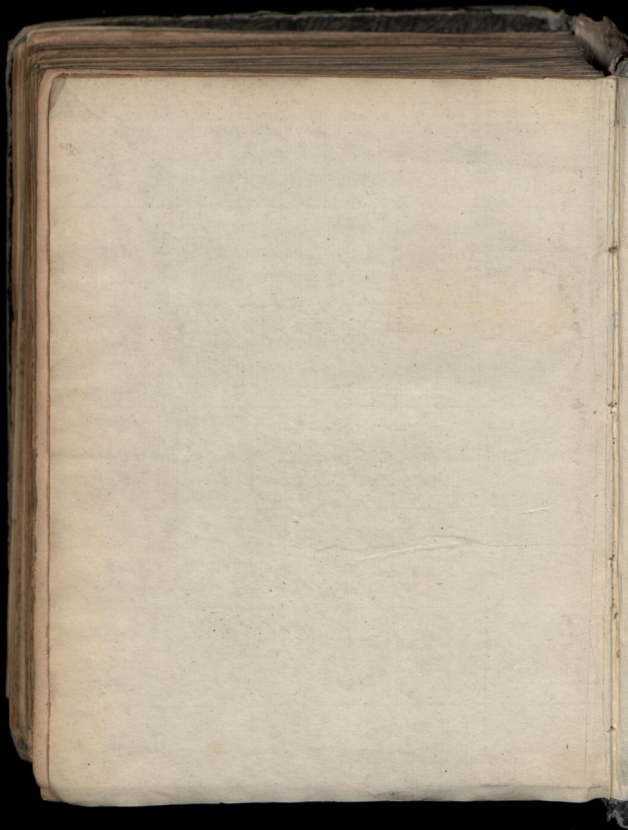

*Non mihi Threicij Vatis, non plectra Maronis,  
Nec dum Castalij sunt tempora cincta corollis,  
Vix ego Callirhoës sumo de fonte liquores.*
